

## PTPLUS Wire Marker holder For PF Labels

- Improved holder similar to PA profile with oval shaped pocket for marker labels and tags.
- The marker pocket's resilient design protects and fastens marker tag.
- Fast and easy assembly of marker by applying pressure once on marker pocket.
- The flexible bellows design of the holder allows rapid and adaptable mounting on wires and cables.

## Specifications

### Design

PTPLUS is a closed marker holder of improved bellows design with a pocket to hold marker tags of types PF, PFC or PP. The new bellows design with grooves decreases the friction up to 50% when the sleeve is pushed on the wire. The holder is transparent and is mounted directly on the cable or wire before assembly. The marker tag can be affixed before or after assembly. The holder does not require much space, PTPLUS02 and PTPLUS10 fit wires to 5 mm terminal block widths.

### Material

Cadmium and silicon free soft PVC according to Partex formula.

### Colour

Transparent.

### Temperature Range

Shape permanence from -30°C to + 60°C  
(-22°F to + 140°F)

NB! Only the sleeve.

### Resistance

The product is tested by the Swedish Test and Research institute according to the Partex Product Test Programme and has the following test properties:

- Flammability resistance: UL94-VO.
- Resistance to UV radiation: corresponds to 1 year outdoors in the south of Sweden.
- Chemical resistance: meets Partex Product Test Programme criteria (except for battery acid).
- Thermal and aging resistance: meets Partex Product Test Programme standards.

*For application in hostile environments, please contact T&B for information.*
